Calamity Jane is currently the only non-parent female in the breed with her combination of CED, WW, YW, SC, CW, MARB, SB, and SC. Her recently deceased dam was a phenotypically perfect daughter of Teasdale Angus donor Blackstone Rita 4214 and Baldrige Colonel. 4214 is a direct daughter of GAR 5050 New Design 0545 and granddaughter of the infamous DRMCTR Rita 6108. Calamity Jane's elite genomic profile and stout but feminine phenotype gives this female tremendous breeding versatility. She ranks in the top 1% for 10 EPDs, top 25% for 21 EPDs, with a +1.81 MARB, +256 SB, and +381 SC. A true diamond, she was the only female progeny out of this mating which makes her rare air!
